

Homework 5 (5 points) Due Monday May 6, 2019, Please don't hand it in late!

Write a php program that combines THREE of the concepts that you learned this week. Please include at the very least a loop, a conditional and a Get. Please make sure you run it on your server as well as the Northeastern server. Zip up the program on your server and also please hand in the link of running it on the northeastern server.

*Please maintain the site structure with www being at the root and directories js, images and css underneath. Your index.html can go under the www folder. Compress this into a ZIP file called **YourLastName_Homework5.zip** and upload to your blog 6AM of the next class day.*
